Main Site Hazards

There are a number of safety hazards of which you particularly need to be aware.

These include:

- Large vehicles.
- Asbestos.
- Electricity. Explosive atmosphere potential.
- Process machinery.
- Falls from heights.
- Slips, trips and falls.
- Dust

Your Equipment Must be Safe

- Lifting equipment must be tested and have a current inspection certificate.
- Electrical equipment must be tested with in-date test stickers to verify this.

- All other equipment must be safe, legal, checked and fit for purpose.

Safety Signs

- Signage is used to indicate hazards and tell you what you must do. Follow at all times.

The 5 Safety rules we must never break		
1		Follow road and pedestrian signage at all times.
2		Keep a safe distance from any working vehicle.
3		Never enter a flat store if vehicles are operating inside. Wait until the driver stops the engine or leaves the store.
4		Wear the site mandatory PPE. Other PPE may be required.
5		Use the sheeting point provided. Hold handrails and follow safe systems of work.

Assess Your Task and Work Safely

- No task should be started without a risk assessment and method statement if required.
- A permit to work will be required for some higher hazard tasks.
- Follow IGT's food/feed safety rules

- Your work area must be kept clean, tidy and orderly.

Environmental Requirements

- All wastes must be disposed of in the correct and legal manner. See your site contact for details.
- No waste or harmful substance may be poured into any drain or sink.
- Report any spillage immediately and contain it if safe to do so.

Food/Feed Safety and Illness

- Smoking is banned unless in designated areas.
- No alcohol, glass or hard plastics may be brought on to site.
- If you have been suffering from any of the following within the last 48 hrs, you must notify your contact immediately: Infectious illness, diarrhoea, vomiting or any known gastrointestinal disease.
- Other specific requirements may apply, which you will be briefed on by your site contact as they apply to your task/work area.
- Advise your site contact if you have visited any food/feed storage or processing sites within the previous 2 days.
- Eating and drinking on site is only permitted within designated mess rooms.
